- Article - Seasonal Festivities
- Pictures - Memories from the "Art of Healing" provider appreciation dinner.

## Announcements

**We are proud to announce that as of January 1, 2005, Independence Medical Group will be offering a new health plan product to its participating physicians: Aetna HMO. IMG's network will be providing care to eligible Aetna Commercial members all throughout Kern County. This relationship will bring many opportunities to the community. We thank you for your continued support of IMG.**

## Serving You Better

Welcome to the first issue of the Independence Medical Group (IMG) newsletter. We are excited about the progress we have made since July and are looking forward to the new year.

This newsletter is the first of several steps being taken to continue bringing the Health Net/IMG community closer together. In the future, you will be able to use this newsletter as a valuable source of information. This newsletter will be sent by fax on the last week of every quarter. It will contain: information on spotlight services; a "Did you know?" section which will proactively address issues from billing, to authorizations, to patient management; and a calendar of events for the next quarter.

This newsletter will also introduce and provide information on the development of new resources for you and your practice to take advantage of. One of the first resources being developed is the IMG website. We believe our website will be an invaluable tool for our network. Training and education materials will be easily accessible. Links to community information and other helpful websites will be available to you as well. An event calendar and a link to CERECONS are also in the process of being developed.

Be sure to look for all this and more in our upcoming issues.
